

In this issue:

- **METS2009: 5 important reasons to visit us:**
- **METS2009: Workshop on SA-Evolution**
- **Azure Vision and Azure Agent: previews**

## 5 good reasons to visit our stand

1. Enjoy a personal demonstration of the latest version of **AzureProject**
2. **Azure Vision:** new software to view sail plans, rig, hull and every detail using an interactive 3D window.
3. **Azure Agent:** new software for people in charge of measuring sailing boats.
4. Experience **SA Evolution:** the *revolutionary technology* to optimize fiber layouts
5. Meet **Sandy Goodall**

Please reserve a personal meeting at [info@smar-azure.com](mailto:info@smar-azure.com)

**STAND: 03.322**  
British Marine Pavillion

## Open invitation to a free workshop:

METS2009 - Amsterdam  
Date: 17-18-19 Nov 2009  
Stand: 03.322  
British Marine Pavillion  
Time: 13:00

The *workshop* will provide an overview of the new technology to optimize fiber-layouts. The presentation will focus on optimization case studies.

### PROGRAM

- 13.00 How SA-Evolution optimizes fiber layout
- 13:20 Opinion from independent guest speaker
- 13.30 Question and Answer session

After the work-shop, the SMAR Azure team will be available to discuss any special question in private.

**We look forward to meeting you at the workshop!**

## What's new?

**AzureProject:** Innovative and ever more versatile fiber layout tools: each group can be shaped using internal control points and multiple segments

**Azure Agent:** Agents can save the rig measurements in a file to be sent to the designer. This avoids mistake due to missed or unclear rig measurements!

**Azure Vision:** Designers can send a 3D rendering of the sailplan, rig and boat to sailors! Your customer can see their sails in 3D on their computers!
