just to let you
know it was
great!*

**Azure
PROJECT**

AzureProject V 5.0

A leap forward in sail design

AzureProject is the only integrated sail design software that allows sail designers to move effortlessly through the various phases of DESIGN, PERFORMANCE ANALYSIS and FIBER LAYOUT!

EFFICIENT and PRODUCTION orientated

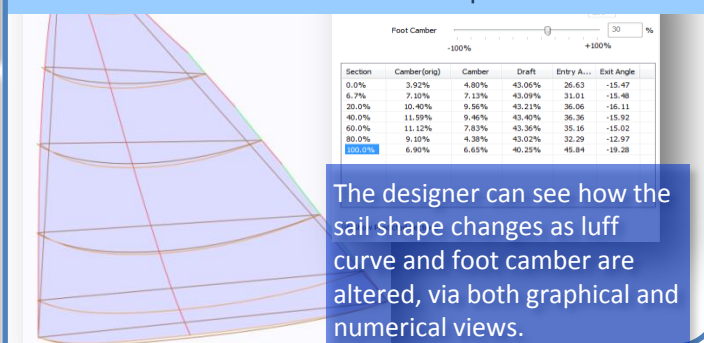

the main reasons behind AzureProject being the choice of the majority of membrane sails producers in the world.

Some of the new features are:

- Lateral luff curve
- Immediate Fiber layout library use
- Straight paths option
- Total Membrane Weight Calculator

Request AzureProject demo

Focus on 'Luff / Foot – Sail-Shape Interaction'

The designer can see how the sail shape changes as luff curve and foot camber are altered, via both graphical and numerical views.

OUR LATEST NEWS

1st AU/NZ AzureProject User-Group meeting 17th of March 2015 - SYD

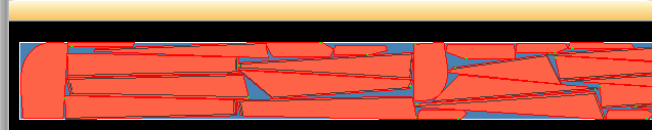

The appointment of *Brad Stephens*, based in Sydney, aimed to ensure easy access for Australian and New Zealand customers to SMAR Azure's unique products and services, as well as signalling our commitment to provide outstanding technical support and training courses to customers based in these territories.

The forthcoming User-Group meeting after a day of training are part of this strategy.

We thank Brad for the organization and wish a great day to all our customers attending the event!

NestFab v2 – automatic nesting software

With an intuitive easy to use interface, NestFab automatically nest panels quickly and efficiently. The user needs to save the panels file from AzureProject and open it in NestFab, which in a few second produced the nested table automatically with a typical performance of 85% of cloth usage. Please call us to have a demo or to try it!

Img2Des – from sail image to design file

It allows to measure the flying sail-shape from a digital picture and create the design file ready to be used in AzureProject

*What a great weekend I had testing the Fareast28r !
The design of the sails is perfect !
Thank you for the great job,
Wessel van der Werf , INSAILS – ZEILMAKERIJ.COM*
