SMAR Azure Newsletter | METS Edition

At the METS2018, we will unveil brand new versions of **AzureProject**, the **AzureAgent APP** and **RigEdge**. In this newsletter, we share a preview of these new versions!

Please contact Sabrina to schedule a meeting with us, by sending an email to sabrina@smar-azure.com.

Do not forget to **REGISTER HERE** for METS2018 & get your **FREE VISITOR PASS**.

We look forward to meeting you all at our stand - **01.275**.
- Sabrina, Donald and Francesco

NEW
VERSION

AzureProject

NEW FEATURES

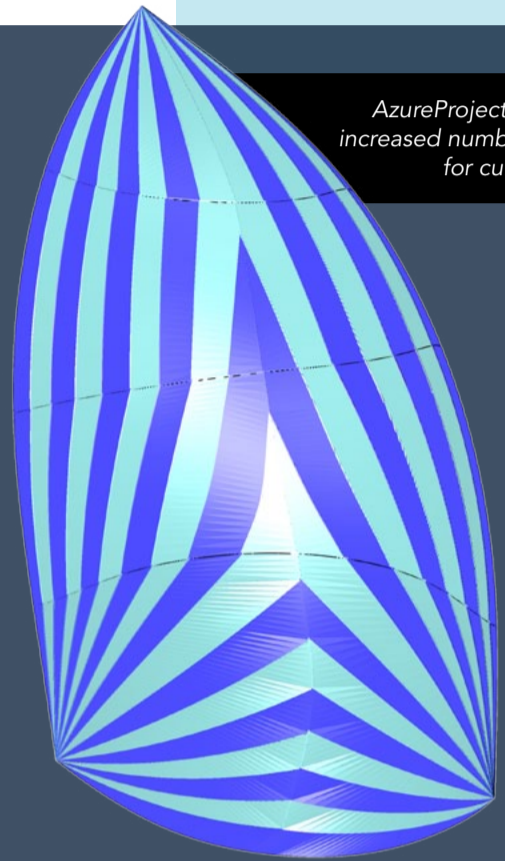

AzureProject now allows increased number of points for curved seams.

Some of the NEW features released at METS are:

- » Ability to **CREATE**:
 - » Fibre layout directly on the flat panels, which means you can create and manufacture fibre-membrane sails very efficiently!
 - » **LUFF EYELETS** directly with the position.
 - » even better **CURVED SEAM**, as we increased the number of points you can use.
- » Ability to view the reefed headsail, using conventional reef.

NEW
VERSION

RigEdge

NEW FEATURES

The new cutting edge features are:

- » **BOOM** is now included in the analysis.
- » Option to enable/disable the **VANG** in the various load case within the single project.
- » Save **ALL** load cases results in a *.csv in one click.
- » **DETAILED DRAWING** with dimensions print out (*.pdf).

DEMO**

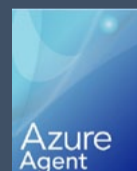

Boom is now included in the analysis

NEW
VERSION

AzureAgent

NEW LANGUAGES SUPPORT

We heard our customers and at METS we will release a brand new version of the AzureAgent App, with **support for Italian, French and Spanish**. With the language feature, there will be no more barriers between the person measuring the rig and the sail-designer.

OTHER NEWS

- At METS, we will run the **8th AzureProject User Group Meeting**, where users can meet the developers and suggest new features for our software.
- We are also preparing to launch our **new website!** Featuring a fresh new look, the website is easier to navigate, compatible with mobile browsers, and more flexible.
