

NEWS

- We have just released version 5.9.5 of **AzureProject**! You'll find it available for download in your client area on our website, and we've included a quick look at the new mitre cuts generator below. Full update notes are also available on the website.
- We're happy to announce that we'll be at **METSTRADE** again this year - where we'll also run some workshops for our customers, covering AzureProject, RigEdge and AzureAgent. More details below.
- We have added a Junior Mechanical Design Engineer to our team! **Alejandro Ivanez** holds a MSc in Ship Design from the University of Norway (NTNU) and a BSc in Marine Engineering from the Univesidad Politecnica of Madrid.

## AZURE PROJECT v5.9.5

### MITRE CUT LAYOUT

The matching of the seams is now automatically enforced in the new mitre cut layout generator! It allows creating the layout from a single interface at once by setting cloth width and seam width, alignment and seam location.

- > Create the mitre cut layout from a single interface
- > Enter cloth width and seam width, alignment and seam location
- > The layout is created immediately after pressing "create" on the interface
- > The seam matching is automatically enforced
- > The procedure is quicker, smoother and easier than before

**METS TRADE STAND 01.275** AMSTERDAM, 13-15 NOVEMBER 2018  
**METSTRADE 2018**  
 JOIN US FOR THE WORKSHOPS

We will be at **METS 2018**, stand number **01.275**. As in previous years we will also be running an **AzureProject workshop** on the first day (13 November, 9:00am). This year we also aim to run a **RigEdge workshop** at our stand on the second day. On the final day we plan to have an informal **AzureAgent workshop**. Please **register your interest using the links below**

## AZURE PROJECT WORKSHOP

REGISTER NOW

### SAIL DESIGN TUTORIAL & FIBRE LAYOUT OPTIMIZATION

As part of our presence at METS, we will be running our **AzureProject** workshop, focusing on specific aspects of the design tools, including mitre cut sails; we will also include a session on the use of the fibre layout tools. As always, we'll be also happy to look at different topics based on questions from our attendees.

The workshop will take place at 9:00 on the morning of Tuesday the 13th November, and is priced at €100 (as previous years). **The workshop is only available for customers, and the number of places is limited so please register early to avoid disappointment.**

## RIG EDGE WORKSHOP

REGISTER NOW

### GETTING THE MOST FROM YOUR TOOLS

In our **RigEdge** workshop, we will be looking at some of the key features the software, covering data entry, the different analysis modules, load case settings and will be happy to answer your questions. We will also **release a new version of RigEdge** at METS, and will highlight some of the new and improved features. We will be interested to hear your suggestions for further improvements.

The **workshop will be free to all our RigEdge customers**, however, to make sure we are able to cater to your needs, **please register your interest and vote on your preferred date and time for the workshop.**
