Wishing you a very
## MERRY CHRISTMAS
&
HAPPY NEW YEAR!

SMAR Azure Ltd

2022 Recap

It's been another intensive year at SMAR Azure we have been delighted to support our increasing number of users and have been involved in some very interesting projects.

Screenshot from April webinar

We have hosted 6 webinars and 2 user-group meetings with attendees from all over the world. Providing over 600 minutes of tips and tricks to be used to enhance your designs and get the best from AzureProject. all webinars are available to all our customers

Gaff Top Sail

During 2022 we have released 3 new versions of AzureProject with the following main developments:
 - Added Gaff Top Sail design, including associated rig elements
- New improved Decksweeper design options.
- Updated external hull import to latest version of 3dm files.
- Added a 2D flexible distance measurement tool.

A further release will be available in the coming days with updates to the Gaff Top sail design and more.
A new release of RigEdge will be available early next year to include the Gaff Top Sails with further developments planed for 2023

Source: METSTrade

Finally we would like to thank all who came to see us at METS 2022 after almost 2 years of restrictions due to Covid-19. It was great seeing familiar faces and meeting new clients.

 As always we have welcomed all your suggestions and feedback and look forward to implementing many of the suggestions in 2023.

Thank you for your valuable contribution to making this year a great success and we wish you all the very best for 2023.

Support during the HOLIDAYS!

We know that holidays season is for people to relax, but for those of you who will be working, please be aware that there will be limited support available between 26th December 2022 and 3rd January 2023. We will do our best to deal with any urgent matters during this time.
